Two Teams Tied

If two teams are tied in points, the higher standing will be determined as follows in descending order:

- b. If two teams are tied and the game between the two ended in a tie, or the two teams have not played each other during the round-robin portion of the tournament, the higher standing will be determined based on the *ratio of goals for to goals against* (goals for divided by goals against), calculated to three decimal places. All round robin games played will be used to calculate the ratio. The higher standing would be awarded to the team with a higher ratio.
- c. *fewest goals against* in round robin play. (All games played)
- d. *most goals for* in round robin play. (All games played)
- e. If the two teams are still tied, the higher standing will be determined by a coin toss.

Three or more teams tied:

In case of a tie at the end of round robin play between three or more teams, the higher standing will be determined as follows in descending order:

- a. *ratio of goals for to goals against* (goals for divided by goals against) calculated to three decimal places. The higher standing would be awarded to the team with a higher ratio.
- b. If the teams are still tied, the higher standing will be determined by *goal differential*, (goals for minus goals against). The higher standing will be awarded to the team with the higher differential.
- c. If the teams are still tied, the higher standing will be awarded to the team with the *fewest goals against* in the round robin portion of the Tournament.

- d. If the teams are still tied, the higher standing will be awarded to the team with the *most goals for* in the round robin portion of the Tournament.
- e. If the teams are still tied, the higher standing will be selected through a draw.

26. Tie Breaking Format for Championship & Crossover Games (Over-Time)

If a Championship or Crossover game is tied at the end of regulation time, the following tie breaking format will be used. (goaltenders to remain in same end as third period for the duration of the overtime periods):

- a) 5 minute stopped time, 4 vs 4, sudden death.
- b) 5 minute stopped time, 3 vs 3, sudden death.
- c) At no time will any team play with less than three skaters during the overtime. If a team is assessed a penalty that would leave the team with less than three skaters, the penalized skater would serve his penalty, and the opposing team will add a skater, up to a maximum of five skaters. The penalized player returns to the ice when their penalty expires. At the next stoppage of play, players are removed from the ice as dictated by the overtime format.
- d) If no winner has been determined after the two periods of overtime, a shootout will take place, using one goalie and three (3) shooters from each team. Each of the shooters will alternate shots on the opposing goalie until each of the six (6) shooters has had their turn. The team that scores the most goals will be declared the winner. If a player is serving a penalty that has not yet expired by the end of overtime, this player will not be allowed to be one of the first 3 shooters.
- e) If still tied, one skater from each team will take a shot. This continues until one skater scores and the other does not. Penalized players are now eligible to shoot.
- f) No player may take a second shot until all skaters on a team have taken a shot. Order of shooters may be changed for the second round.

At the conclusion of round robin play, a random draw will take place for the host team, and the game that is drawn will be voided from the standings. The semi finals will be as follows: Team 1 vs Team 4 and Team 2 vs Team 3.

Six Team Divisions

In a six (6) team division, the teams will be divided into two (2) groups of three (3). Teams from one group will play those in the other group. After round robin play is complete, the top four (4) teams overall will advance to the crossovers. Winners of the crossovers will play in the championship game.
